DETAILED ACTION

Response to Amendment

Applicant's Amendment filed April 26, 2004 has been fully entered and considered.

Response to Arguments

Regarding Provision Double Patenting rejections over copending application 10/035,564; the rejections have been withdrawn in view of Amendments to the claims of 10/035,564 filed on April 23, 2004.

Regarding Provisional Double Patenting rejections over copending applications 10/255,777; 10/232,193; 10/118,780; 10/255,926; 10/035,659; and 10/255,730: Since the double patenting rejections are the only rejections remaining in the present application and in copending application 10/255,777, the double patenting rejections are being withdrawn in the present application in accordance with MPEP § 804 I(B), to allow the present application, which has an earlier filing date than 10/255,777, to issue as a patent. The rejections will be maintained in the other application as a provisional double patenting rejection that will be converted into a double patenting rejection when the present application issues as a patent.
